Kira Generalskaya

Head of Social Media & Content | Tech & Web3

Remote · EU time zone · kira.web3marketing@gmail.com · linkedin.com/in/kira-generalskaya

I lead social media and content for consumer tech and Web3 products. Over the past six years, I've built social media operations from scratch, managed teams of up to 10 people, and led social strategy for Blum's 30M+ ecosystem.

My experience covers brand voice and content across up to 13 platforms, editorial workflows, reporting, budgets of around $10K a month, and communications for company founders. I started my career in journalism, and I look beyond reach to understand how content contributes to product and business goals.

KEY RESULTS

- Blum: led social strategy for an ecosystem with a 30M+ audience. One educational post reached 2M views and was credited with 300K+ new wallet connections through internal campaign attribution.
- Web3 SocialFi product (NDA): built the social function from zero. CoinMarketCap views per post grew from about 1.3K to about 10K (7.7×) after the channel moved in-house, with no paid support; X impressions grew 146% in the first month with no budget.
- Donot (Blum): developed the channel's content strategy and brand voice for an audience of 763K subscribers at the time.

EXPERIENCE

Global Head of Social Media | Web3 SocialFi product (NDA)

Jan 2026 – Present · Full-time · Remote

Joined a consumer Web3 product with no social function and built one: strategy, brand voice and a working process for 10 platforms (X, Telegram, Discord, Instagram, Facebook, LinkedIn, TikTok, YouTube, Binance Square, CoinMarketCap), plus the founder's own X and LinkedIn.

- Set up how the team works: what each platform is for, content pillars, a calendar, review before publishing, and weekly and monthly reporting with findings and recommended next steps. Moved the workflow from ClickUp to Notion.
- Brought CoinMarketCap and Binance Square in-house from an agency and rewrote the CMC feed as plain-language product explainers.
- Grew reach without a media budget: median reach per post up 27% from spring to summer 2026, LinkedIn engagement rate at 13% (Jan–Apr 2026), 459 new Telegram subscribers from a single AMA.
- Wrote the playbook for six regional X accounts, including China: what to localise and what stays global, how often to post, and how to report.
- Hired content contributors from a pool of 40+ applicants; onboarded a reply-marketing specialist and manage their work.
- Put AI into the content workflow with rules for tone and claims, platform specs and a quality check before publishing. Added a claims process: a list of verified numbers, a rule that public figures must be verified first, and pre-publication fact-checking for product communications.
- Report on engagement, follower quality, UTM traffic, sign-ups, brand mentions and inbound interest from partners and investors. Change posting frequency and formats based on engagement data, not on volume targets.

Strategic SMM Consultant | Web3 & DeFi teams

Jun 2025 – Sep 2026 · Freelance, part-time alongside other roles · Remote

Social strategy, positioning and founder brands for Input Global / WeFi, Cointelegraph (on the agency side) and clients under NDA. The usual format: audit what exists, test a few hypotheses, set up voice, content pillars and workflows, then measure and adjust. At Cointelegraph the brief covered SMM strategy, KOL campaigns and a creator club, measured on reach, CTR, engagement and conversion.

Growth Marketing Manager | ACSG

Jun 2025 – Dec 2025 · Part-time · Remote

Supported acquisition through paid placements, partnerships and creator campaigns, and kept the founder's communication in step with launches and the go-to-market story.

SMM Manager | Blum

Oct 2024 – Jun 2025 · Part-time (Donot channel) from Oct 2024, full-time from late 2024 · Remote

Ran social strategy for a Web3 ecosystem with a 30M+ audience across Telegram, X, LinkedIn, Facebook and Instagram. Led a team of 5+ including regional managers for Turkey, Brazil, Africa, Asia and CIS, with a budget of around $10K a month.

- Set the global strategy and adapted it market by market; reviewed regional content and results every week.
- Created educational content explaining product features and launches, including the Memepad campaign highlighted in Key results.

- Led launch and ecosystem campaigns: the Solana trading launch thread (1.9M views, 18K likes), Blum × BNB Chain (1.1M views) and the Solana support update (707K views). Telegram posts regularly reached 1.4–2M views.
- Produced and hosted AMA livestreams with 15K+ viewers at peak.
- Developed the Donot channel's editorial direction, content and brand voice independently.
- Wrote the post-TGE retention and anti-crisis strategy: how we respond, when we escalate, and what we never do, such as fake engagement or hiding reviews.
- Proposed product and retention concepts covering token utility, transparency and community engagement.

SMM & Marketing Head | GOTBIT

Apr 2024 – Nov 2024 · Full-time · Remote

Led social media and marketing for several Web3 portfolio projects, including BabyDoge, KicksPad and Prediction Game, with additional content support for Wirex Pay Chain and Nereus Finance.

- Built channel strategies across X, Telegram, YouTube, Medium, Discord, Facebook and TikTok, starting from market and competitor research, audience analysis, positioning and messaging for each project.
- Ran go-to-market and launch communications, and paid placements with UTM tracking and ROI-based budgeting; handled campaign analytics, partnerships and product offers.
- Worked directly with business and project teams and adjusted messaging to how the market responded.
- Produced content end to end: copy, scripts, visual direction, Photoshop and Final Cut Pro.

SMM & Content Head | Choise.com

Mar 2022 – 2024 · Full-time to Mar 2024, part-time from Apr 2024 · Remote

Launched and ran social and content for new products in a crypto-fintech ecosystem, where the job overlapped with product marketing, launches and the founder's communication.

- Launched Hashcats (a Telegram mini app) from zero: brand voice, content system and community mechanics, with a meme-native tone, token launches, AMAs and activations.
- Handled product positioning, messaging and audience segmentation within the marketing team, and translated product features into clear, audience-focused content.
- Set up content planning, scheduling and analytics; ran product and customer research and fed the results back into the content.
- Supported the founder's personal brand and executive communication.

Community Manager | MY.GAMES

Nov 2020 – Aug 2024 · Part-time · Remote

Ran the official channels for American Dad! Apocalypse Soon, Zero City and Hustle Castle on Facebook, VK, Discord and TikTok.

- Launched TikTok for Zero City and Hustle Castle, built ambassador programs, and handled moderation, player support and weekly reporting.

SKILLS

Strategy & leadership: building social and content functions from zero · social media and content strategy · team leadership (up to 10, incl. regional managers) · hiring and onboarding · operating models, playbooks and editorial workflows · managing agencies and bringing work in-house · cross-functional work with founders, product and growth

Brand & communications: brand voice and tone of voice · founder and executive communications · launch and GTM communications · crisis and reputation strategy · retention and community strategy · localisation and regional accounts

Growth & analytics: organic growth · analytics and reporting (reach, engagement, UTM, CTR, follower quality) · testing formats and posting frequency · creator and partner campaigns · paid placements (supporting)

Content operations: AI-assisted content workflows with editorial quality control · claims verification and information integrity · short-form, threads and long-form · AMA and livestream production
